About the Impact-Linked Finance Fund

The [Impact-Linked Finance Fund](#) provides finance to high-impact enterprises and directly rewards these for positive outcomes generated through their business activities. It was established by [Roots of Impact](#) and [iGravity](#) in order to pool their know-how and activities for implementing scalable Impact-Linked Funds.

The Fund, set up as a Dutch foundation under the legal name of “Stichting Impact-Linked Finance Fund” (ILFF), is acting as a capital provider and knowledge hub for the practice of [Impact-Linked Finance](#). It also advocates for embedding impact-related principles and terms in other areas of business, policy, and finance. Currently, the ILFF manages and implements three funding windows ([Impact-Linked Funds](#)) focusing on providing Impact-Linked Finance to impact enterprises across selected sectors in Africa and Asia.

Governance

The ILFF is domiciled in Amsterdam, The Netherlands, and is managed by a Board of Directors (BoD). The ILFF operations are carried out by the facility managers iGravity (based in Zurich, Switzerland) and Roots of Impact (based in Frankfurt, Germany) based on individual Impact-Linked Funds. The founders of both iGravity and Roots of Impact are members of the BoD and take on the roles of Co-Chair, Secretary and Treasurer. A third independent member of the board is based in The Netherlands. There is a separate Supervisory Board (SB) which provides overall oversight over the ILFF. [More details on the Fund's governance can be found here.](#)
